MEMORANDUM

T0: Deans, Directors and Department Heads

FROM: Marc Hoit
Vice Chancellor for Information Technology

SUBJECT: One-time Reduction of Phone Charges for 09-10 FY

In recognition of the budget realities we're all grappling with, the Office of Information Technology would like to pass along one piece of positive news.

Through a combination of operating efficiencies recognized within ComTech, the postponement of an upgrade to the Nomad registration system, decreased deployment of wireless, extending the life of network switches and one-time funding from Finance and Business, we will be offering a one-time adjustment to the campus phone rate for 09-10.

Next year's rate will be \$7 per line per month instead of the normal \$9 charge, which is expected to resume in 10-11.
